

## ***Stepping Stones & Stepping Stones Plus***

The *Stepping Stones* programme was created in Uganda between 1993 and 1995; in 2008 additional sessions were made available in the form of *Stepping Stones Plus*. Both materials were wholly revised and updated by Salamander Trust with the original creators in 2016; they are available for purchase as a single document from [Practical Action Publishing](#) in both paper and electronic forms.

If you want to use the materials please email us ([ststinfo@salamandertrust.net](mailto:ststinfo@salamandertrust.net)) and [join our international community of practice](#) so that we

can learn from one another.

<https://steppingstonesfeedback.org>

Please note, there are many adaptations and translations of the *Stepping Stones* materials; some were made in collaboration with the original creators and some were not.

Section 2 of our Adaptation Guidelines sets out 4 foundation stones for the programme: principles, structure, dosage and duration. This makes it clear who can or cannot use the name *Stepping Stones* for their HIV and VAW-related materials.

*Stepping Stones & Stepping Stones Plus*, our dedicated [Stepping Stones](#) website, and our international community of practice of *Stepping Stones* users are curated by the Salamander [Trust](#). We also curate our sister programmes, *Stepping Stones with Children* and *Stepping Stones for Peace and Prosperity*.
