

Stepping Stones with Children

The *Stepping Stones with Children* programme was created between 2011 and 2016 by lead author Gill Gordon of Salamander Trust, in partnership with the Tanzanian NGO PASADA.

The *StStwC* manual (in two parts) is available for purchase from [Practical Action Publishing](#) in English and in kiSwahili, in both paper and electronic forms. Organisations that cannot afford to buy the manual can [apply for free copies](#) from Salamander Trust.

The accompanying counselling guide, monitoring and evaluation tools and other supplementary materials are available for free download at <https://steppingstonesfeedback.org/resources/stepping-stones-children/>. Short films about Stepping Stones with Children can be viewed at <http://tinyurl.com/StStwCDar>.

To read about the evidence base regarding *StStWC*, read our impact brief and poster, [here](#).

If you want to use the materials, in the spirit of shared learning, please email us (ststinfo@salamandertrust.net) and [join our international community of practice](#) so that we can learn from one another.

<https://steppingstonesfeedback.org>

Please note, the content of *Stepping Stones with Children* is comprehensive, in line with UNESCO's international technical guidance on sexuality education (2018). In Tanzania and Uganda, however, Salamander Trust is supporting partners to undertake local adaptations, so that the content aligns with current respective government policies.
