CARE

About CARE:

- Presence in Uganda since 1969
- Focused on women & girls

What we offer:

- Our programming targets changing underlying gender norms to achieve gender equality and empower women.
- Models to:
 - change norms around GBV, Women's Economic Empowerment, Women's Leadership, especially in emergencies
 - shift household relations through intra-household dialogues (Social Action Analysis)
 - engage men and boys to promote positive masculinity for GBV prevention and SRHR;
 - transform gender discourse through Social Activism

Our interest in EALC:

- Validate these approaches together with the EALC and Global LC Network. We come to network with a wealth of experience and a thirst for knowledge.
